

COMPANY
PROFILE

ABOUT US

PROFILE

Trust Valves was established in 2008 and operates in the valve market as distributor and stockist of internationally recognized valve brands. The company is member of Firsra Group and is designed to provide efficient and reliable service in harsh industrial applications, combining the proven performance of the industry most rugged platforms with the widest variety of valves and flow control options.

VISION

To profitably grow the Flow Control business by supplying solutions that give substantial value to our customers, to provide highly valued careers for our associates and deliver solid returns to our investors.

MISSION

To build a partnership with our customers by supplying solutions that have deep impact and enable them to achieve core aims. Trust Valves aims to provide the best products and customer service. At Trust Valves customer satisfaction is the highest priority.

WHERE

The administrative and operating offices are located in Rovello Porro, 30 Km from Milan and 20 Km from Como, with easy access to airports, highways and seaports. Trust and its sister company, FIRSA Valves, are only a few kilometers far.

FACILITIES

Trust Valves manages its own stock of valves with a 1.500 sqm warehouse and conducts operations independently such as: small machining, non such destructive testing (NDT), standard and special packaging. FIRSA plant consists of more than 7.000 sqm including offices, workshop and warehouse.

PARTNERS

Trust Valves is distributor and stockist for some of the world's leading companies in the manufacture of valves and mechanical interlocks:

**ADD
VALUE**

PAINTING

Blasting and painting for every valve size and application according to any coating system.

MACHINING

End connections can be turned as per customer's specific requirements.

MARKING

Identification of each valve with a stainless steel nameplate indicating the exact wording, code or tag required.

COMPLETE PACKAGE

Today more than never it is essential to supply a complete line of control equipment. Besides manual, actuated and control valves, Trust offers a full range of in-line components such as strainers, steam traps and sight glasses providing a complete package of supplies.

THE INVENTORY

A wide range of world leading manufacturers of gate, globe, check, ball and butterfly valves, cast and forged steel, from 1/2 "up to 24". Selected materials include carbon steels through special alloys and pressure ratings ranging from ANSI class #150 to #2500.

Each valve is completely traced and certified to satisfy any customer request.

GATE, GLOBE AND CHECK VALVES

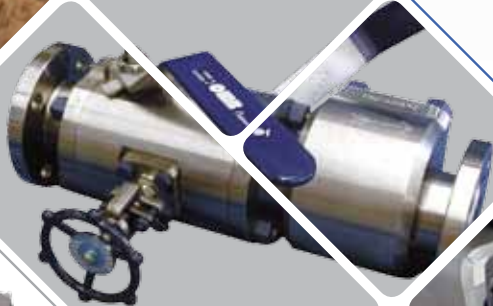

- Forged and cast steel.
- Bolted, welded bonnet/cover.
- Special service cryogenic and bellow seal.

BUTTERFLY VALVES

- Manual and motor operated.
- Wafer, Lug and flanged.
- Soft and metal seated.

WAFER CHECK VALVES

- Wafer, Lug and flanged.
- Retainerless body.
- Soft and metal seated.

BALL VALVES

- Floating and trunnion mounted.
- Forged, bar stock and cast steel.
- Special execution double block & bleed.

API6A

- Ball, gate and check type.
- Sizes from 1"13/16 to 11"
- Pressure up to 20000 Psi.

EXOTIC ALLOYS

- Super austenitic, Duplex and NiCrMo stainless steel.
- Iron, Copper and Super Nickel alloys.
- Titanium, Nickel and Bronze.

PRESSURE SEAL

- Forged and cast steel.
- Gate, globe and check type.
- Special execution Y-pattern.

Y-PATTERN

- Welded and bolted bonnet/cover.
- Special execution bellow seal bonnet.
- High pressure and temperature.

TRIPLE OFFSET BUTTERFLY VALVES

- Wafer, Lug and flanged.
- Bidirectional and zero leakage.
- Manual and actuator operated.

WATER & MARINE

BUTTERFLY VALVES

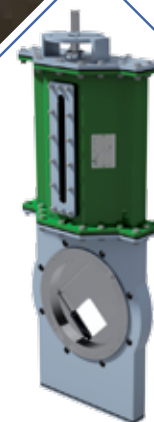

- Manual and motor operated.
- Cast iron and steel.
- Wafer, Lug and flanged.

KNIFE VALVES

- Pulp & paper and slurry services.
- Manual and motor operated.
- Uni or bi-directional

GATE, GLOBE & CHECK

- Rubber lined or metal seated.
- Cast iron and steel
- Pressure rating up to PN 25

FULLY LINED VALVES

- Plug, ball, butterfly, diaphragm and check type.
- Cast iron and steel.
- PTFE/PFA, rubber and glass lined.

BELLOW SEALED VALVES

- Gate and globe type.
- Zero emissions and long life.
- Welded and bolted bonnet.

IN-LINE COMPONENTS

- Strainers and sight glasses.
- Cast iron and steel.
- PTFE/Rubber lined or unlined.

MANUAL VALVES INTERLOCKS

- Quarter, multi-turn type.
- Adaptable to and valve's size.
- Fully stainless steel construction.

MOV INTERLOCKS

- For electric and pneumatic operators.
- Suitable for linear and rotating actuators.
- Fully customizable to any design.

APPLICATIONS

- Storage and fuelling.
- Pigging and process.
- Loading stations and machines.
